LED Under Cabinet Light

APPLICATIONS

Dimmable 120V under cabinet light easily replaces existing fluorescent, incandescent, halogen and xenon fixtures. A built in driver and convenient knock-outs enable quick and easy installation for remodel and new construction applications.

FEATURES

- Built-in integral electronic driver
- Dimmable 120V
- On / Off rocker switch
- ≥90 CRI
- Available in 9 different lengths
- Rear panel punch-in electrical connectors for easy wiring
- 2700K color temperature
- 50,000 hour life expectancy
- Linkable up to 400W
- Mounting hardware and captive screws standard
- Available in white and bronze
